

Fresh Traction Wash

Description

This product is a 2 in 1 cleaner and fresh digester providing odor and soil free floors and grout. This product improves slip resistance for worry free floors. Kitchen floors require special attention due to the types of soil they are exposed to. Animal fats and vegetable oils along with the normal tracked-in daily dirt cause kitchen floors, especially those with mortar grout, to become slippery and hard to clean. This product does it all — a heavy duty cleaner with a neutral pH incorporating enzymes to initially clean the floor and eliminate unpleasant odors.

Directions

Read entire container label before using this product.

QUARRY TILE, CONCRETE, BRICK, RUBBER MATS:

- Sweep area to be cleaned.
- Add both packs to 3-4 gallons of cool water.
- Mop liberally onto floor surface.
- Squeegee excess liquid to drain or remove with a damp mop.
- Discard mop water in drain to reduce grease build-up and odor.

Fresh Traction Wash has been tested for slip resistance through the ASTM C1028 test and shows to be comparable to the Ecolab Wash 'n Walk product.

For detailed instructions and safety information, please review container label and SDS.

Features

- **Ultra Low Residue**
- **Carpet Friendly**
- **Effective on the Toughest Stains**
