

HP202

Approved for Use Against Emerging Pathogens

Our entire team at Bright Solutions is working closely with the U.S. EPA to continue adding to our list of products that fight emerging pathogens. **HP202 has been EPA approved for use against SARS-CoV-2, the virus that causes Covid-19, at 2 oz per gallon of water in 1 minute on hard, non-porous surfaces.**

Product Description:

HP202 has demonstrated effectiveness against viruses similar to **SARS-CoV-2 (formerly 2019-nCoV)** on hard, non-porous surfaces. Therefore, this product can be used against **SARS-CoV-2** when used in accordance with the directions for use against Norovirus on hard, non-porous surfaces. Refer to the CDC website at: <https://wwwnc.cdc.gov/travel/notices/alert/novel-coronavirus-china> for additional information.

HP202 is a one-step germicidal cleaner and deodorant designed for general cleaning, disinfecting, and deodorizing hard, non-porous surfaces.

HP202 Offers BIG Benefits:

Designed to kill viruses similar to COVID-19 and reduce the spread of germs, this powerful product is your solution to keeping everything clean and safe in your facility.

- Hydrogen peroxide based
- One-step cleaner, disinfectant, deodorant
- No noxious odor or fumes
- Effective against viruses similar to SARS-CoV-2
- Gentle on most hard, non-porous surfaces
- Manufactured in a LEED™ Gold-certified facility
